

My reconstructed breast is as much
a part of me as my elbow!

The eight week recovery was
already worth it when I saw how
good my tumour looks!

Most importantly, my entire family
appreciates the care and compassion you
showed to us throughout the entire
process. You are a complete Mensch!

Don't change and keep doing what you
are doing so others may be as fortunate
as I feel.

Sincerely,
Doris Neudlman

Dear Dr. Small,

It's been two years since my
reconstruction and I just want you to
know how thankful I am for your
work and care. My life has gone on
and the greatest compliment I can give
you is that I no longer think of my
reconstructed breast as a reconstructed
breast. I wake up daily, dress,
and live my life like everyone else.
